

WISH YOU COULD GET HOSTESS REWARDS FOR JUST \$35??

YOU TOTALLY CAN!!

JOIN MY HOSTESS CLUB

For just a \$35 minimum order every other month for 12 months, YOU will get ALL the hostess benefits for one of the months!! I pair you in a club and collectively EVERYONE helps each other earn the hostess rewards- you are guaranteed at least \$30 in FREE Hostess Rewards but it can go as high as \$160+ depending on the orders of all the club members.

There is NO sending out invites, no cleaning your house, no calling to follow up, no hunting down those friends who "owe you one", no banning your family from the house to have a party, and NO CLEAN UP!!

If this sounds like something YOU want in on- EMAIL ME TODAY!!!

*** Notes specialty items found on Clearance Rack, Sale-A-Bration, Hostess Exclusive or otherwise retired products, simply substitute the noted item for similar color/shape style of product.**

Blendabilities Technique

- DARK-LIGHT: -Color a small area of the inside for the image with darkest color,
- -Use the MED color marker to color over the dark color and pull the Med color out a bit longer in the image.
- -Use the lightest marker to color over the entire image, moving the marker in a circular motion to blend the lines and colors.
- LIGHT—DARK: -color the outside of the image with the lightest marker.
- -Then use the MED marker to place color up against the light color, but not color over.
- -Then place the DARK ink on the inside of the image but don't color over the rest of the markers.
- -Then take the LIGHT marker and using a circular motion blend all the colors together.

Blendabilities Technique

- There no wrong or right way to color with blendabilities, it depends on your preference.
- Cut this page along the dotted line and attach your recipe sample that you have colored in both techniques, this way you will know which technique you prefer.

BASIC BLENDABILITIES TECH CARD

- Fold 5-1/2" x 8-1/2"" card base along score line at 4-1/4"
- Stamp the lined image of your choice all over the 3-3/4"x5" whisper white piece using Momento Black ink.
- Stamp one or two of your line images on the smallest whisper white piece using Momento Ink
- Color in your lined image using the Blendabilities marker of your choice and cut or punch out your shape.
- Secure the lined image onto the stamped black and white background.
- Secure the card front onto the 3-7/8" x 5-1/8" Pear Pizzazz using snail adhesive.
- Place a few dimensionals on the back of the stamped piece and secure to the card front.
- Stamp a simple sentiment onto the Daffodil strip and cut out and secure to the card front.

BLACK MAGIC BLENDABILITIES TECHNIQUE

- Use Versamark ink to stamp a solid image onto the front of the kraft journal.
- Cover stamped image with white embossing powder, then heat set the embossing powder until it's glossy.
- Use the blendabilities markers to color in the sections of the stamped image.
- Take the white gel pen and make scribble lines along the top and side and then write over with the pen making some stitch marks.
- Color up some dots, rhinestones, and buttons with the blendable markers and secure to the journal with glue dots.
- Tie a bow in the ribbon and secure to the journal with a glue dot.

BLACK & WHITE PHOTO POP TECH

- Use the Blendabilities markers to color in various sections of your black and white photos to create a simple and subdued pop of color to your pictures.
- The markers will work on a variety of materials from glossy photos, window sheets, and any other NOON-POURPOS surfaces. Get creative and try them all out!
